USE CASE
PROPPED DOOR / LOITERING
Safe Utilities

Operational View

DETECT
PROPPED DOOR ALERT
Alert sent to security about a door propped open in restricted area outside of a highly secured site.

ANALYZE
LOITERING ALERT
Security alerted to group of individuals loitering outside of propped door entrance.

COMMUNICATE
NOTIFICATIONS COMMUNICATED
After initial alerts, image and location of the individuals are sent to field security teams to disperse the crowd and secure the door.

RESPOND
CORRECTIVE ACTION TAKEN
Security deters the crowd gathering to view nearby gang activity at a perimeter fence and takes corrective action. An incident is logged including video feeds for evidence along with other relevant data allowing for further training and analysis.
